PARTNER
to the global chemical industry

Bureau Veritas is by your side **throughout your entire value chain: from feedstock**, to **processing, transportation** and **final product testing**.

Our solutions are structured to support the life cycle of your assets, from **planning and design** through **procurement** of components and equipment to **construction** and **operation**:

- **Minimize environmental impact** through emission monitoring and regulatory compliance.
- **Achieve consistent quality** by controlling your supply chain and processes.
- **Preserve the life** of your plant through Asset Integrity Management, inspection and non-destructive testing.
- **Opening Up New Markets** by differentiating your products and services through independent third party testing.
- **Reduce risk** in your construction projects through safety assessments, supervision and quality assurance.
- **Reassure local stakeholders** by demonstrating conformity with regulations and standards.
- **Reduce Cost** through efficient operations and maintenance activities.
- **Access expertise** throughout the world thanks to our global network.

MARK
of global recognition

The Bureau Veritas Mark is a globally recognized symbol of your organization's ongoing commitment to excellence, sustainability and reliability.
Bureau Veritas Certification*, the world's leading certification body, is accredited by a large number of national and international accreditation bodies such as UKAS, COFRAC, ENAC and DANAK. Our experts are involved in several technical committees.

*The independent certification body of Bureau Veritas

A GLOBAL LEADER
In testing, inspection and certification

Bureau Veritas is a world leader in testing, inspection and certification. We help clients across all industries address challenges in quality, health & safety, environmental protection (QHSE) and social responsibility.

For over 180 years, our clients have looked to us to provide technical support, verify compliance or obtain certification. We support them in increasing performance throughout the life of their assets and products and via continuous improvement in their processes and management systems.

Our teams worldwide are driven by a strong purpose: to preserve people, assets and the environment by identifying, preventing, managing and reducing risks.
