

AWARENESS GHG ACCOUNTING & REPORTING TRAINING

Objectives

In this course, you will learn how to apply the ISO 14064-1 and ISO 14064-2 standards for the accurate, complete, consistent, transparent, relevant and conservative reporting of greenhouse gas emissions. You'll gain the confidence and skills you need to develop greenhouse gas inventories for organizations and for emission reductions and reversals.

By attending this programme, participants will be able to understand:

- Quantification and reporting of greenhouse gas (GHG) emissions and removals at the organization level
- Principle of quantification and reporting of greenhouse gas emissions and removals
- Establish GHG inventory boundaries
- Quantification of GHG emissions and removals
- Requirements for GHG projects (ISO 14064-2)
- GHG emission reduction
- GHG inventory quality management
- GHG reporting

Who the course is for

Investment professionals, management consultants, operational, engineering, environmental (EHS/SHE/QHSE), energy and/or sustainability managers at plant / site / asset or company level and those from their teams from organizations of any size.

Course Content

- What are carbon emissions (GHG) and why are they so important?
- What is included in the ISO 14060 family
- Comparison between the GHG protocol and ISO 14064
- ISO 14064-1:2018, Greenhouse gases - Specification with guidance at the organization level for quantification and reporting of greenhouse gas emissions and removals
- ISO 14064-2:2019, Greenhouse gases - Specification with guidance at the project level for quantification, monitoring and reporting of greenhouse gas emission reductions or removal enhancements

Additional Information

- **Duration: 09:00 - 16:00 WIB**
- **Study Method: Virtual Classroom / Online Training**
- **Investment: IDR 5.000.000,- (Inclusive Softfile Material & Certificate)**, (Exclusive VAT 11%)
